Muhammad Naufal is a 20-year-old student currently pursuing a Dual Degree in Computer Science at MSU and Information Engineering at State Polytechnic of Jember. An enthusiast about learning and growing in the field of IT, with a specific interest in web development and Quality Assurance. In my spare time, I am involved in my own projects, which not only sharpen my creativity and problem-solving skills but also enhance my enthusiasm for technology. I am committed to making a positive impact on society and aspire to launch a technology startup. I believe in the power of education and innovation to develop a better future.
